Williams, Dimond & Co.'s Circular, per S. S. Australia.

San Francisco, Feb. 21, 1891. Sugar.-The last change in refined in the local market was made February 9th, when both Refineries reduced prices to 6c for Cube, 5¾ Gran., 45 Ex. C., and 4¾ Gol. C. These are the prices quoted to-day. The demand is only for actual requirements, and not likely to improve until after April 1st.

CUBA BASIS, New York, Feb. 19, 5.65. EASTERN AND FOREIGN MARKETS. Our latest mail advices from New York of the 14th instant state that holders have kept prices well in hand during the month, an advance has been established in both Raws and Refined.

The New Orleans market has sympathized with New York, and planters have been influenced by the better prices to ship most of the sugar they have been holding back, and the increased offerings have been readily taken up.

The European market has also shown an improvement, the price of beet sugar advancing in a week from 12s. 9d. to 13s. 6d. The cane crops of the world are not turning out as large as expected, which has necessitated a much larger buying

in Europe. As the 1st of April approaches, much interest is exhibited as to how much free sugar will reduce the price of re-

The markets are likely to be more or less excited for the next two months, but the tendency must be toward higher values, and it is predicted that the year will be one of advancing prices.

From Millett & Gray's latest report of February 12th we quote receipts at N.Y. for the week, 20,784 tons. Meltings 8,988 tons. Total stock in all hands 57,402 tons, being an increase for the week of 8,988 tons. Total stock in all the principal countries 1,371 568 tons against 1,345,383 tons same time last year.

M. Licht's report of January 17th places the production of the European beet crop for 1890-91 at 3,690,000 tons against 3,619,678 tons in 1880-90. London beets 88 deg. test were quoted

on the 11th at 13s 6d, and since then have fluctuated between that figure and 13s 7½d. Our latest telegraphic advices from
